

+25 years of In House Experience

Our team of underwriters, engineers, and risk management specialists has over 25 years of combined experience in the energy industry. We promise to offer fair and justifiable premiums based on YOUR product, costs, and past warranty expenses — not your industry peers. We push innovation for some of the top alternative energy companies in the U.S.

Why Partner with SolarInsure?

Gain Customer Confidence

SolarInsure assumes up to 100% of the risk on solar repair, including full protection from any mechanical and electrical failures due to regular use. For your clients, that means:

-  Zero premiums
-  24/7 claim support
-  Zero deductibles
-  Transferable ownership of policy

► PROVIDE BETTER SERVICE

SolarInsure's warranty program lets you offer customers up to 25 years of extended warranty protection. As a manufacturer, contractor, or supplier of solar products, there's no better way to differentiate yourself. Increase trust, provide a higher level of service, and position yourself as an industry leader throughout the solar process.

Every warranty is backed by an A.M. Best A-rated third-party insurance company. Our flexible program structure lets you personalize each warranty based on your specific customer's needs. Customer trust is the #1 key to a long-term relationship. Offering the SolarInsure Extended Warranty shows you're willing to go above and beyond.

Statistics show that extended warranties help close more deals and build customer loyalty.

60%

Of Home Owners are concerned with the long term viability of Solar products

75%

Of Home Owners Say they are more likely to purchase solar when an Extended Warranty is provided.

70%

Buyers of warranty plans are happier with their purchases and more loyal to both the Installer and the manufacturer.
